THE CHURCH ON THE HILL

The Church on the Hill, known also as the Acworth Meeting House or the Congregational Church, was built in 1821. Since 1965 it has been one of the two churches of The United Church of Acworth. It is reported to have been built at a cost of \$6,000 and three barrels of rum. The design is attributed to Elias Carter, builder of numerous churches in the Connecticut Valley. The beauty of its design and location are known far beyond the boundaries of Acworth.

Although the frame and exterior of the church, with the exception of the windows, reflect the original architecture the interior has been radically changed. The balcony and box pews were removed - two floors were created with the sanctuary on the upper level and smaller rooms, including a kitchen, on the lower. Stained glass windows replaced the originals.

Some years ago it became obvious that the interior needed refurbishing and concurrently the idea was born of restoring the church to its original form. Thus, in 1973 The United Church of Acworth appointed a committee to study the question of restoration. The committee undertook an exhaustive search, which is continuing, to locate original records on the construction of the church. To date none have been found although eye-witness accounts exist.

In November Mr. Philip Baker, a recognized expert in restoration, was contacted and he visited the church. In his report he wrote: "From past experience I believe the interior of this building may be restored to its original appearance. Of interest is the use of the old box pews in the fabrication of the current benches. I feel that under floors, behind walls, and in any other part of the church that has been altered, may be found enough pieces of the puzzle to enable an authentic restoration". He also noted a number of areas where structural repairs were necessary to prevent deterioration; namely, finding and repairing areas where water is penetrating, re-setting foundation stones that have shifted and some work on the sills. The estimated cost of the complete restoration, including repairs, is between \$180,000 and \$219,000. A very rough cost of the estimate of repairs is \$20,000 to \$40,000. Mr. Baker concluded "the interior at this time may have sentimental value to many. I am sure these people will be able to accept the beauty of the restored pulpit, box pews and balcony once it is seen".

At the time of writing the Church has made no decisions but should it endorse restoration it will need support from far and wide; but, most importantly it will need the whole-hearted cooperation of the entire community.

TOWN WARRANT
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Acworth in the County of Sullivan in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town Hall in said Acworth on Tuesday, the 5th day of March, next at 7:30 of the clock in the evening, to act upon the following subjects:

1. To choose all necessary Town Officers for the ensuing year.
2. To see if the Town will vote to empower the Selectmen to serve as Pound Keepers, Measurers of Wood, and Fence Viewers.
3. To see if the Town will vote to authorize the Selectmen and Treasurer to borrow money in anticipation of taxes.
4. To see if the Town will vote to direct the Selectmen to appoint the Road Agent.
5. To see if the Town will vote to appropriate a maximum capital outlay of \$40,000.00 for:
 - A. Town Garage
 - B. Tractor Loader
 - C. Used grader or repair existing grader.
6. To see if the Town will vote to finance the maximum capital outlay of \$40,000.00 by one or more of the following means:
 - A. Authority to borrow \$20,000.00 and repay in full by December 31, 1976, by equal annual payments and raise the necessary balance by taxation;
 - B. Authority to borrow \$20,000.00 and repay in full by December 31, 1977 by equal annual payments and raise the necessary balance by taxation;
 - C. Or take any other action hereon.
7. To see if the Town will vote to change the road (No. 117) from Robert Ingoldsby's buildings to Max Boy's building from Class VI to Class V.
8. To see if the Town will vote to plow snow if required on Class VI road No. 124 from Morse's Corner south to Francis Vail's camp.
9. To see if the Town will vote to appropriate \$5,000.00, to be added to \$4,257.07 in the Town Hall Capital Reserve Fund.

10. To see if the Town will vote to give the Town Hall Committee a concise vote on their proposed plan. (See Town Hall Committee Report)
11. To see if the Town will authorize the Selectmen to sell the "Barton Wood Lot" (as described in Vol. 282, page 476, Sullivan County Registry of Deeds) to Claude Bassinne for considerations to be determined by this Town Meeting. The "Barton Wood Lot" consists of 6 acres entirely surround by C. Bassinne's property in E. Acworth. There appears to be no evidence of road frontage nor legal right-of-way to this lot.
12. To see if the Town will vote to authorize withdrawal from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972, for use as set-offs against budget appropriations in the amount indicated; and, further to authorize the Selectmen to make pro-rata reductions in the amounts if estimated entitlements are reduced or take any other action hereon:

A. Acworth Silsby Free Library for:	\$ 500.00
1. Repairing and painting exterior trim	
2. Repairing and painting windows	
3. Refinishing Bird Room floor	
4. Cut brush and saplings around building	
 B. Town Hall Capital Reserve	 2,000.00
 C. New Road Equipment	 <u>2,500.00</u>
	\$5,000.00

13. To see if the Town will vote to accept the Budget as submitted by the Budget Committee and pass any vote in relation thereto.
14. To see if the Town will vote to authorize the Selectmen to apply for, contract for, and accept aid relative to disasters from State and Federal Governments and use same for repair and reconstruction of damage incurred during December, 1973.
15. To transact any other business that may legally come before this meeting.

Given under our hands and seal, this 11th day of February, in the year of our Lord nineteen hundred and seventy-four.

REPORT OF THE ACWORTH POLICE DEPARTMENT 1973

Numerous minor automobile accidents were investigated and reported to the Motor Vehicle Department. Routine messages were delivered. Fifteen cases of burglary were investigated. Ten of these are still under investigation by the State Police and Sheriff's Department.

For the past three years Bud Peck and Keith Goodell of the Ram's Motorcycle Club of Stowe, Mass. have asked for our cooperation during their fall trail tour. This is a very carefully planned tour which includes Acworth as a small portion of their total mileage over public roads. Besides donating \$200 of their profits to the Dan Metcalf Scholarship fund, they chose to give \$400 to an Acworth organization. Since they asked for a recommendation, we suggested that it be donated to the Acworth Fire Company. Added to the Civil Defense funds available this year, this donation enables the purchase of a long-needed portable radio. It was felt that this would be of benefit to the entire town and possibly might benefit the donors themselves someday. We all owe them a special thanks for their consideration through the years as well as this generous donation.

Elbert Knicely, Constable

PUBLIC NOTICE

TOWN OF ACWORTH Acworth, New Hampshire

Under Municipal Budget Law Emergency Provisions (RSA 32:10 - a) the Town of Acworth has been authorized to expend unappropriated funds.

1. On April 23, 1973 the Acworth Budget Committee unanimously approved the Board of Selectmen's application to expend \$12,500. for purchase of new highway equipment lost in fire of February 14, 1973.
2. On April 27, 1973 the State of New Hampshire Tax Commission approved Acworth Budget Committee request to expend \$12,500. for purchase of new highway equipment.

Lyman Young, Chairman
Alston W. Barrett
Kenneth Bascom

SELECTMEN OF ACWORTH

REPORT OF THE SELECTMEN

On February 14, 1973, a fire destroyed the town garage and its contents, which included the small International dump truck purchased in 1969, the sander, tools, extra tires, and miscellaneous items. Insurance settlements of \$8,805.00 were applied to offset emergency expenditures of \$12,500.00 recommended by the Budget Committee and approved and authorized by the N. H. State Tax Commission. Following the fire we initiated a complete review of all our insurance coverage and took steps to secure more realistic coverage for future years.

J. Leonard Balla, Road Agent, retired in March, 1973. His many years of service in a difficult position are appreciated. Ronald Shaw was appointed to succeed Mr. Balla and continued to fill that position for the remainder of 1973. We wish to thank Mr. Shaw for his service to the Town in a year which saw much storm damage to the roads, both in mid-summer and December.

Relative to severe storm damage to our Class V roads, the Selectmen are continuing to seek disaster aid to help offset the high costs of road repair. As we are at this date outside the geographic and political limits of the area, defined as eligible by the Governor's office, we foresee limited success at this time.

In July, 1973, Kenneth Bascom Selectman, resigned and in October, Raymond W. Roy was appointed to fill this vacancy until the regular elections of the 1974 Town Meeting.

We are pleased to report that preliminary design and engineering are completed for reconstruction of the Leon Newton Bridge. Agreeable site selection has been determined by the abutter, N. H. Highway Department engineers and the Selectmen, and construction is anticipated in the spring.

This year Town Road Aid was used towards completion of the Crane Brook Road project. Other road projects using Duncan or Town Appropriations include clearing trees and brush removal along E. Luther's Hill Road and the reconstruction of a portion of the Hidden Springs Road. We wish to acknowledge the cooperation of the abutters and primary benefactors of this last project for donating necessary sand and gravel, a portion of the tree removal, and supplying adjacent areas for boulder and stump dumping. This cooperation made it financially feasible to undertake this reconstruction project. We also wish to thank the Planning Board for their efforts of granting permission for the preplanned widening and removal of trees on the E. Luther Hill Road project, as is required in the case of designated Scenic Roads.

At the beginning of 1974, the Selectmen appointed Roger Pelton to serve as Road Agent until Town Meeting. Work will continue on the serious and extensive damage done by the December flood. Near normal maintenance will be attempted in spite of a very real shortage of fuel for Town vehicles. If any

drastic economy measures have to be taken, every effort will be made to give first priority of service to those areas of full-time residences.

The continuing suit of Acworth vs. Davis & Symonds et. al. is outlined in the report of R. J. Shortlidge, Attorney, whom we wish to thank for his many varied efforts on our behalf.

Another matter which required much effort by the Selectmen resulted from an injury suffered by J. Leonard Balla on November 1, 1971, while in the employment of the Town. After much inconvenience to Mr. Balla and the Town, it was discovered in early 1973 that our former insurance agent, Pierce-Putnam Insurance Agency, Keene, N. H. had not renewed our Workman's Compensation Insurance policy, leaving the Town liable for Mr. Balla's injury and related expenses. Efforts by the Selectmen and Mr. Balla resulted in hearings in Concord at the Departments of Labor and Insurance to secure proper legal compensation for the injured and recompense for the Town's payments toward a policy which had been cancelled without proper notification. As a result of these hearings and actions taken by our Town Attorney, we are pleased to report that Peerless Insurance Company has assumed responsibility for the gross negligence of its former agent. This resulted in a disability payment of \$5,521.20 to Mr. Balla, a payment which could have been incumbent upon the Town. Peerless Insurance Company has also reimbursed the Town in the amount of \$524.50 representing all expenditures prior to the settlement of this case. As part of the same settlement Peerless Insurance Company has agreed to cover any future medical expenses resulting from this accident. The Town, in concluding this settlement, purchased three policies from Peerless Insurance Company for retroactive coverage for 1970-1971-1972, premiums for which amounted to \$1,010.00. This settlement was reviewed and approved by the New Hampshire Departments of Labor and Insurance.

In the past year twenty building permits were applied for and granted. This compares with fourteen permits granted in 1972. There are a number of zoning violations still in existence at this time, however we wish to report that official action has been undertaken in such cases, and we are anticipating compliance. We note with interest that most such violations seem to occur in ill-conceived subdivisions and seldom involve the actual resident population of Acworth.

Respectfully submitted,
BOARD OF SELECTMEN

REPORT FROM TOWN COUNCIL

R. J. Shortlidge, Jr.

February 5, 1974

Re: Pierce Brook Estates

The Town's complaint against Davis & Symonds was filed and served during the summer of 1972, some year and a half ago. Since that time the Superior Court of Sullivan County, which has jurisdiction over the suit, has scheduled a hearing on the matter (to consider the various motions filed by Davis & Symonds and to prepare the case for trial) on at least three occasions, and each time the matter has been postponed at the request of Davis & Symonds. The latest hearing was scheduled for February 6, 1974, but was postponed by the court at the defendant's request on the ground that the developer is completely revising its development plan for Pierce Brooks Estates, and hopes the new plan will be acceptable to the Town when submitted so that there will be no occasion for a trial of the case by the Court.

The Planning Board, Selectmen and other interested citizens are in the process of reviewing the revised plans for Pierce Brooks Estate proposed by the Developer, and until these newly proposed revisions (which had not been received by the Town prior to 1974) have been completely reviewed, we cannot know whether it will be necessary to press forward with the law suit.

In the meantime, the first objective of the law suit has been met: That is, work on the unsatisfactory development plan which Davis & Symonds was in the process of implementing in 1972 has been completely stopped; many of the lots sold to buyers in the development have been re-purchased by the developer; any potential obligations of the Town to provide facilities and services for the area have been indefinitely postponed, at least, by the law suit; and the tax burdens for the development will probably be substantially reduced from what they would have been otherwise, when and if the development ever comes into being.

Please refer to last year's report for a discussion of the precise issues raised by the law suit filed on behalf of the Town.

R. J. Shortlidge, Jr.

February 13, 1973

Our complaint against the defendant has five counts, as follows: I, The defendants trespassed on the Town's roads adjacent to Pierce Brook Estates by changing their character and making them impassable; II, The defendants violated Acworth's subdivision regulations by selling certain lots without subdivision approval; III, Sales by defendants of certain other lots violated the Town's zoning ordinance because the lots lacked frontage on a public right of way; IV, The defendants promised their buyers certain town services, such as

road maintenance, and priced their lots accordingly, thus unjustly enriching themselves at the expense of their buyers and/or the Town; and V, The defendants failed to make full disclosure of their prospective purchasers under the State's Land Sales Full Disclosure Act.

Newspaper and other media interest in the case continues to remain high. According to reporters, responsible citizens in other communities are extremely interested in the results of the Acworth suit, for the reason that ground which they may also wish to read, is being broken. We receive calls from the media periodically asking to be informed of each step in the case, plus comments and inquiries from concerned citizens.

R. J. Shortlidge, Jr.

ACWORTH SILSBY LIBRARY REPORT - 1973

The total circulation of Acworth Silsby Library increased in 1973 by 700 pieces, including books, magazines and records. This was made possible by the wonderful help we had from everyone in the community. Many people gave of their time in various ways, on the Bookmobile, the very successful book sale, and the regular hours at the library. We received a gift of a magazine rack, another typewriter, money from individuals, also money in memory of Mrs. Gladys Farley, from the Acworth Parent's Club, Acworth Woman's Club, The Community Aid, with large gifts of books and magazines.

We had much difficulty with our magazine subscriptions, in spite of several letters and telephone calls we never received McCall's and the Yankee Magazine was very late in coming.

REPORT OF ACWORTH DIRECTORS UPPER VALLEY-LAKE SUNAPEE COMMISSION AND COUNCIL

At the annual Town Meeting of 1973 Acworth voted favorably upon an article to join the Regional Planning Body now known as the Upper Valley-Lake Sunapee Commission.

Our membership did not become effective until July 1, 1973 but before that date we were provided with various services from the office of our area of the Commission, the Upper Valley-Lake Sunapee Council in Newport. Most of these services were in the form of assistance from Mr. Robert Ward, Regional Planner, in helping the Planning Board set up a format for the preparation of a Master Plan. Specifically the Upper Valley-Lake Sunapee Council helped in the preparation of forms for gathering information and in the recommending of guidelines to be used in compiling mapping information. Recently Mr. Ward met with the Planning Board to review information already collected. The Council office in Newport is currently in the process of redrafting map information provided them by the Planning Board and Conservation Commission to be used in the preparation of the Master Plan.

The U. V. L. S. Council has taken an active interest in the suit of Acworth vs. Davis & Symonds et. al., resulting in Council representation at meetings with Attorney Shortlidge and various Boards here in Acworth.

The Council's Newport office has reviewed the condition and operation of Acworth's dump facilities as part of a regional study of waste disposal problems. At the January meeting of the Council the directors were presented with a summary of information on waste disposal procedures of all towns in the Council area. The collected information is going to be presented to a Boston management engineering firm that will return a report with various alternatives for the member towns to consider.

In conjunction with the Sullivan County Soil Conservation District Office the Council Office has recently completed model subdivision regulations which have been made available to the boards of Acworth. In the coming year it is hoped that a comparative study can be made and appropriate changes be considered.

As Acworth's members to the Board of Directors we have attended a Commission meeting in Lebanon and regular monthly Council meetings in Newport. At the former we voted on matters concerning the Commission as a whole. To date most of these matters have been of an organizational nature, but we do wish to remind the voters of Acworth that we now have a vote equal to that of Hanover, Lebanon, or Claremont in determining matters of regional policy which come before us.

In conclusion we sincerely solicit any ideas, comments, or criticisms that will help us better express the needs and wishes of Acworth as directors of the Upper-Valley Lake Sunapee Commission.

Respectfully submitted,
Joan York, Director
G. K. Fenderson, Director

ACWORTH PLANNING BOARD REPORT

Although handicapped by frequent changes in membership and lack of a permanent meeting place, the planning board has managed to maintain continuity. This has been due largely to the willingness of everyone to work at home as well as at frequent meetings. Assistance received from our Regional Planner, Robert Ward, our County Engineer, Leon Giel, and Soil Scientist, Roy Shook, has also been a tremendous help.

There was a sharp decrease in subdivision this year. Only five proposals were received, and two were pending from last year. Four were approved, and three are still incomplete at this time. Several people have also brought tentative plans in for discussion. Generally people have been cooperative and eager to do things properly.

Dan Gehan, Elbert Knicely, Richard Elsesser, and Robert Shepard, were appointed to a subcommittee to study the problems of the town hall. Since they have been working entirely on their own, they will present their own report.

Work has been completed on maps showing the status of all town roads, the distribution of power lines, as well as the location and use of all buildings. Drafting and printing will be done by the Upper Valley Regional Planning Council as a service included with our membership. We are presently working on index cards which will give further description of each property. These will be numbered to match the symbols on the map. Field work for the soils study was done this summer and the interpretation and mapping is nearing completion. We have already made use of this information several times.

While we have always felt that Acworth's greatest asset is its people, the large and thoughtful response of the questionnaire certainly confirmed this. The percentage of comments actually far exceeds the 27% shown, as many others were interspersed throughout all the questions. Although expressed in many ways, the comment that appeared repeatedly was that people prefer Acworth the way it is and want it to stay that way.

Our thanks go out to everyone who replied to the questionnaire and to those who helped us distribute and collect them. We also thank the selectmen, the community aid, and currently the Fire Co. for the temporary use of their quarters for our meetings.

We continue to welcome any comments, suggestions, questions or criticisms at any time. Our goal is to carry out the wishes of the people in a way that will be of continued benefit to the town as a whole.

Fay Knicely, Chairman

ACWORTH CONSERVATION COMMISSION ANNUAL REPORT

The Commission has worked with the local Planning Board this past year, helping to gather information for the Town Master Plan. It has also acted on an advisory capacity to the Board of Adjustment and Planning Board on matters concerning building sites, etc. in questionable conservation areas.

The group conducted a successful roadside cleanup day in April with plans to make this an annual program.

Legislative changes during the last session have helped to make local commissions more effective in their respective towns in areas governing open spaces, scenic roads, conservation and preservation easements and dredging and filling. The Commission would be glad to hear from interested people.

Due to the energy crisis, the members are now meeting the first Tuesday of each month at the home of Robert Yale. Towns people are welcome.

Respectfully submitted,
Robert L. Yale, Chairman

ROAD COMMITTEE STATEMENT

The reasons for inserting Articles 5 and 6 in the 1974 Warrant are as follows:

A. The Town has no place to safely work on, nor house, our highway equipment, in order to keep that equipment in good operating condition; thus we feel that the Town needs a new Town Garage.

B. The money the Town spends for hiring a loader each year should cover payments for a new loader. Also, it would be more readily available and valuable for other work besides loading sand and gravel.

C. The Town grader is in need of major repairs and is inoperative at this time. The Town, in order to properly maintain its roads needs its own grader. We recommend to either repair or purchase a second-hand grader, whichever we feel is the most economical.

Respectfully submitted,
THE ACWORTH ROAD COMMITTEE
Francis Wood, Chairman
Elmer Rhoades
Gordon Gowen
Harvey Bascom

SANITARY INSPECTION OFFICER'S REPORT

Numerous requests for information on the installation of sewage disposal systems were answered by phone and letter. Several on-site visits were made where soil conditions presented problems in installing conventional systems.

There is a need to educate home owners and builders on the requirements of the State and the procedures necessary to satisfy them. Communications could be improved at state and local levels to insure that the State requirements are being met in all instances.

Although the specific duties and responsibilities of the Sanitary Inspection Officer should be codified, it is the opinion of the incumbent that those specified in Chapter 147 RSA are not appropriate for the Town of Acworth as they relate to areas of higher population density and the availability of public sewerage.

G. Hanson
Sanitary Inspection Officer

ACWORTH HISTORICAL SOCIETY REPORT

The new Acworth History is the culmination of work started in the 1940's by the late Frank B. Kingsbury and continued by other members of the Acworth Historical Society. Work on the new History is proceeding, with a good possibility that it will be completed late in 1974 or early in 1975. Since all effort now is on a voluntary basis, delays have resulted recently from the pressure of more urgent matters.

The History is divided into two parts. Part I contains 13 narrative chapters prepared by Mr. Newton F. Tolman, largely based on material furnished to him by the Historical Society. An additional chapter covers "Houses - Present and Past" and is accompanied by maps showing the locations of existing houses and known former building sites. An index following this chapter will assist in locating houses occupied by known residents.

Part II contains genealogies of Acworth families, with emphasis on the period following the original History of Acworth (1869). Available data on about 400 families will be included. An index of family names mentioned in the genealogies (other than the 400 Acworth families) will probably be included.

A current estimate of the numbers of pages (including photographs) in the new History is as follows: 13 Narrative Chapters (65 pages); Chapter on Houses (42 pages); Genealogies (450) pages; Index on genealogies (?).

It appears now that the new History will contain about 600 pages. By the end of 1973, the following progress had been made: 13 Narrative Chapters (written, typeset by printer (in galley form); Chapter on Houses - Essentially complete, but not yet typeset (awaiting some further information "uncovered" in the genealogies and other sources.); Genealogies: First 1/3 of families (A-F) - A large portion has been typeset by printer, although some additions and corrections must be made. Remainder nearly ready for typesetting, but has been held back to reduce the need for changes. Second 1/3 of families (G-M) - Work is actively proceeding on editing, double checking data from Historical Society files, cross-referencing, typing in final form etc. Last 1/3 of families (N-Z) - Most family data has been written in first-draft form from Society files. Some editing and typing has already been accomplished.

Assistance in the form of volunteer initiative and effort and the valuable appropriations from Revenue Sharing Funds and Town Taxes has been sincerely appreciated and will make possible an earlier production of this important work.

J. G. Barry

Dec. 30, 1973

THE CHARLESTOWN VISITING NURSE ASSOCIATION, INC.

This year has seen the biggest change in the VNA since its inception. The patient caseload of both VNA and C-Y (Child-Youth) Project increased staggeringly until one nurse could no longer handle both. Each will now employ their own full-time nurse.

Our charge per visit had remained at \$3.00 for years, when our actual cost per visit for 1972 was in excess of \$12.00 (by independent audit). Third party payments (Medicare, Insurance, etc.) previously reimbursed the Agency up to cost, but in the future will only reimburse our actual charge. Therefore, we have been forced to set our charge at \$12.00, but are using a sliding scale for our private patients. This will be based on income, size of family, and circumstances, so that no one cannot afford our services. For some private patients, this will mean a very small sum -perhaps nothing-- for those who can afford the full charge of \$12.00, with the graduations in between.

In the beginning of this Agency, each town agreed to appropriate money on a per capita basis, which they did. There has been a population increase since that time, and the towns have been asked to increase their appropriations accordingly.

The name of the Agency will be changed to the Fall Mountain Visiting Nurse Association, Inc. as soon as it is legally possible; to more truly represent the areas served.

The Board of Directors has eight new members to augment a dwindling number who have served for a very long time. The Board has worked diligently, with the various committees, to revitalize and update policies in order that we might maintain high standards on the very tight budget proposed. We ask not only financial support from townspeople, but participation and encouragement in the continuance of service.

The only thing more expensive than good health care is no health care.

Respectfully submitted,

Joan E. Beach, Acting President

THE TOWN HALL SUB-COMMITTEE REPORT

We have discussed and inspected the Acworth Town Hall quite carefully. It is our feeling that in order to do a complete job the following improvements must be made.

1. The overall appearance of the building should remain in keeping with the present architecture
2. The part of the building from the stage back should be torn down
3. In its place, a 40 ft. extension the width of the present building should be added
 - A. A 10 ft. extension of the main meeting hall
 - B. A 14 ft. stage area
 - C. A 16 ft. office area to include the selectmen's office, a committee meeting room and bathrooms.
4. Heat the building with a hot air furnace
5. Drill a well
6. Add a septic system
7. Add two I beams under the main part of the Town Hall

We have asked the town for direction in this project through an article in the Warrant, but it is our hope that we will build on the capital reserve fund until such time as the job can be done right.

Richard Elsesser
Dan Gehan
Elbert Knicely
Robert Shepard

REPORT OF THE ACWORTH VOLUNTEER FIRE COMPANY for the year 1973

We responded to eight fires this year.

The new fire truck was ordered in March, 1973 and was delivered to us in November, 1973. In the meantime the firehouse modifications had been completed per Insurance Services requirements. Therefore, in December, we applied for and received insurance accreditation as stated in the accompanying letter.

Many people, through the years, have helped to make this possible, especially Mr. Tom Budd and Mr. Julius Christie. Without their efforts we would still be carrying buckets.

The Southwestern Mutual Aid worked very hard toward having the three-mile radius extended to five road miles for 100% - participating fire departments. This became effective in October of this year.

This summer we sold the old 1951 truck to a new fire department in Windham, Vermont.

For the next four years we will be totally dependent on turkey shoot income for the increasing costs of utilities, maintenance, Mutual Aid dues, and the interest on the loan for the truck. This means that we will need and appreciate more than ever the continued support of everyone as members, working at the turkey shoot, and cash donations.

W. HARRISON FERRIS, MANAGER

January 4, 1974

Board of Selectmen
Acworth
New Hampshire 03601

Gentlemen:

We are pleased to advise that the insurance classification of the Town of Acworth has been changed from F to E-5. This means that those dwellings within five road miles of the fire station will receive a more favorable insurance rate; the savings approximating 20% to 25%, contingent upon the type of policy.

The foregoing is a result of the purchase of the new pumper recently placed in service in your town. There are some items of equipment that would be desirable to acquire, in order to obtain the most effective use of the new truck. The chief has been provided with a list of the requisite equipment.

Please extend our compliments to the chief and men of the fire department for their long-term efforts in this regard.

Sincerely,

William E. Proper
